

## Internships

Students are encouraged and fully supported by the department and faculty to apply for internships, particularly in 3rd year of their studies. There is an office of Financial Aid and Career Services (FA&CS) centrally managed by the UET Administration. One of the important functions of the FA&CS is to search and develop contacts with the industry and R&D institute in the public and private sectors of the country in order to identify prospective employers, jobs, scholarships and internship training for UET students. There is an internship/job portal on the UET webpage, as well as on a UET media portal in addition to the Facebook groups purely for Mechatronics students, all of which are very helpful in communicating up-to-date information to all with ease.

The department has a dedicated departmental industrial Liaison office (DILO) through which requests are sent to number of industries to accommodate as many students as possible.

The industries where our students can do internships includes but not limited to:

1. Interloop Limited Faisalabad
